---

Velocity G post launch update : We listened to your feedback and are pleased to release our first update to Velocity G. This update addresses many of the issues raised out and includes: Shorter, but more dynamic tracks - Tracks are now shorter, faster and more exciting to race on. Improved AI difficulty - AI opponents difficulty has been tweaked on the earlier levels as it seemed they were just too easy to beat. Weapons - New pickups are scattered around the tracks that enable weapons, shields and on demand boosts. Obstacles - A range of moving obstacles have been introduced, that require careful timing and skill to negotiate. General bugfixes and improvements We hope you like the additions and improvements in this update and look forward to bringing you more.
